

YESHIVA UNIVERSITY POLICY ON DRUGS AND ALCOHOL

To All Students and Employees of Yeshiva University:

Federal law requires that institutions of higher education promulgate and annually distribute standards of conduct prohibiting the unlawful possession, use, or distribution of illicit drugs and alcohol at any of their facilities or in connection with any of their activities by their students and by their faculty, staff, and others on their payroll (collectively, “employees”). The law also requires that each institution provide various related information more fully described below as part of their program to prevent the unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees.

Yeshiva University's Standards of Conduct on Illicit Drugs and Alcohol are outlined below in Section I. Information on University sanctions for violation of these standards is also outlined in Section I. Information on criminal sanctions for the illegal possession, use or distribution of illicit drugs and alcohol is outlined in Section II. Information on the health risks associated with the use of illicit drugs and the abuse of alcohol is outlined in Section III. Information on available counseling is outlined in Section IV. We urge your careful attention to this important information.

Every employee must abide by these Standards of Conduct as a condition of employment. Additionally, every employee must notify in writing the University’s Office of the General Counsel and Human Resources Department of his or her conviction for violation of a criminal drug statute that occurred in the workplace within five (5) calendar days after such conviction. As required by law, within ten (10) calendar days after receiving such notification, the University will report such conviction in writing to the appropriate governmental agencies. Further, as required by law, within thirty (30) calendar days after receiving such notification, the University will take appropriate personnel action against the employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended, or require the employee to participate satisfactorily in an approved drug abuse assistance or rehabilitation program.

EXECUTIVE SUMMARY

The following is a brief summary of this Drug and Alcohol Policy. Please read the full Drug and Alcohol Policy for more details.

- The unlawful possession, manufacture, dispersing, use, or distribution of controlled substances (other than lawfully prescribed drugs) at any University facility or in connection with any University activity is prohibited.
- Being under the influence of alcohol or illicit drugs during working hours, or when classes are in session, or while engaged in any University activity is prohibited.
- Persons under the age of 21 years are prohibited from possessing or consuming any alcoholic beverage at any University facility or in connection with any University activity.
- Undergraduate students, regardless of age, are prohibited from possessing or consuming alcoholic beverages at any University facility or in connection with any University activity.
- All students are prohibited from being under the influence of alcohol or illicit drugs while engaged in any University activity.
- Employees are prohibited from being under the influence of alcohol or illicit drugs during

working hours or while engaged in any University activity.

- Except for a limited exception, employees are prohibited from bringing alcoholic beverages into, or consuming alcoholic beverages in, any University facility or bringing/consuming alcoholic beverages in connection with any University activity.
- Violators of the Policy will be disciplined, up to and including expulsion or termination from the University.

I. STANDARDS OF CONDUCT

The following are Yeshiva University's Standards of Conduct on Illicit Drugs and Alcohol for students and employees. Any action the University may take under this Drug and Alcohol Policy will be consistent with The Americans with Disabilities Act (ADA) and the Rehabilitation Act of 1973. In addition, please also see the Student Alcohol and Drug Use Amnesty Policy which provides for amnesty under certain circumstances to encourage the reporting of domestic violence, dating violence, stalking, or sexual assault.

A. Standard of Conduct on Illicit Drugs

The unlawful possession, manufacture, dispersing, use, or distribution of illicit drugs at any facility of the University (including housing provided by or on behalf of the University) or in connection with any activity sponsored by, or under the control or supervision of, the University (or a University organization, including student clubs/groups) (whether the event is held at the University or not) is prohibited and shall subject the student or employee to appropriate disciplinary action by the University. In addition, being under the influence of illicit drugs (other than lawfully prescribed drugs) during working hours or when classes are in session or while engaged in activities sponsored by, or under the control or supervision of, the University (or a University organization) (whether the event is held at the University or not) also is prohibited and shall subject the student or employee to appropriate disciplinary action by the University. Employees taking any prescription medication that may affect their ability to work should notify (without disclosing the specific medication or condition for which it has been prescribed) the University's Benefits Office, which will in turn notify the employee's supervisor regarding any potential accommodations that may be necessary.

Any disciplinary action shall be taken in accordance with applicable disciplinary procedures. In the case of students, any such disciplinary action may include suspension, probation, dismissal or expulsion from University housing and/or the University, and also may include satisfactory participation in a drug abuse assistance or rehabilitation program. In the case of employees, disciplinary action, up to and including suspension, probation or termination of employment from the University, shall be taken. Any such disciplinary action also may include satisfactory participation in a drug abuse assistance or rehabilitation program. Employees must be responsible to avail themselves of such assistance, to follow the treatment recommended, and to recognize that simply seeking such assistance does not constitute compliance with the University's policies or job performance expectations. The University may also refer the incident for criminal prosecution by appropriate governmental authorities. Criminal sanctions for the unlawful possession, use, or distribution of illicit drugs are discussed in Section II. Any disciplinary action imposed by the University is independent of, and in addition to, any penalty imposed in connection with a criminal conviction.

B. Standard of Conduct on Alcohol

1. Persons under the age of 21 years are prohibited from possessing or consuming any alcoholic beverage at any facility of the University (including housing provided by or on behalf of the University) or in connection with any activity sponsored by, or under the control or supervision of, the University (or a University organization) (whether the event is held at the University or not). It is the policy of the University to prohibit the serving of alcoholic beverages to persons who cannot establish that they are 21 years of age or older.

2. Undergraduate students, regardless of age, are prohibited from possessing or consuming alcoholic beverages at any facility of the University (including housing provided by or on behalf of the University) or in

connection with any activity sponsored by, or under the control or supervision of, the University (or a University organization) (whether the event is held at the University or not).

3. All students, including undergraduate, graduate and professional students, are prohibited from being under the influence of alcohol while engaged in academic, professional or other activities sponsored by, or under the control or supervision of, the University (or a University organization) (whether the event is held at the University or not). All students, regardless of age, also are subject to any further applicable restrictions of their individual schools or residence facilities concerning alcoholic beverages.

4. Employees are prohibited from being under the influence of alcohol during working hours or while engaged in activities sponsored by, or under the control or supervision of, the University (or a University organization) (whether the event is held at the University or not). Employees are also prohibited from bringing alcoholic beverages into, or consuming alcoholic beverages in, any facility of the University (including housing provided by or on behalf of the University) or bringing/consuming alcoholic beverages in connection with any activity sponsored by, or under the control or supervision of, the University (or a University organization) (whether the event is held at the University or not). A limited exception exists only in regard to the reasonable consumption of alcoholic beverages by an employee (who is 21 years of age or older) at any activity sponsored by, or under the control or supervision of, the University (or a University organization) where alcoholic beverages are being appropriately served and to which the employee is expressly invited (but in no event shall the employee consume to the point of impairment or intoxication).

Upon finding evidence of a violation of the “Standard of Conduct on Alcohol”, the University will take appropriate disciplinary action in accordance with applicable disciplinary procedures. In the case of students, such disciplinary action may include suspension, probation, dismissal or expulsion from University housing and/or the University, and also may include satisfactory participation in an alcohol assistance or rehabilitation program. In the case of employees, disciplinary action, up to and including suspension, probation or termination of employment from the University, shall be taken. Any such disciplinary action also may include satisfactory participation in a drug abuse assistance or rehabilitation program. Employees must be responsible to avail themselves of such assistance, to follow the treatment recommended, and to recognize that simply seeking such assistance does not constitute compliance with the University’s policies or job performance expectations. The University may also refer the incident for criminal prosecution by appropriate governmental authorities. Criminal penalties and sanctions for the misuse of alcoholic beverages are discussed in Section II. Any disciplinary action imposed by the University is independent of, and in addition to, any penalty imposed in connection with a criminal conviction.

II. INFORMATION ON LEGAL SANCTIONS

The information contained herein on legal sanctions is not to be considered legal advice or guaranteed to be a comprehensive inventory of all laws regarding illicit drugs and alcohol. It is the user’s responsibility to check applicable laws. Students and employees traveling abroad as part of a University program also should familiarize themselves with the laws and policies of the location to which they are traveling.

A. Legal Sanctions for Illicit Drugs

The possession, use, or distribution of illicit drugs, depending on the nature of the crime, may result in severe penalties, including fines and imprisonment, which may be for life.

Certain federal penalties and sanctions for the illegal possession of a controlled substance and a description of federal trafficking (i.e., distribution) penalties for substances covered by the Federal Controlled Substances Act are set forth in Appendix A. More information can be found on the U.S. Department of Justice – Drug Enforcement Administration website at <https://www.dea.gov/drug-information>.

The laws of New York City and New York State also provide sanctions for the unlawful possession or distribution of illicit drugs. For more information, see:

- New York Penal Law Article 220 (controlled substances)

- New York Penal Law Article 221 (marijuana)

B. Legal Sanctions for Alcohol

Criminal penalties and sanctions also may result from the misuse of alcoholic beverages. For example, under New York State Law:

1. No person under the age of 21 may possess an alcoholic beverage with the intent to consume it. The penalties for possession of an alcoholic beverage with the intent to consume it include a fine not exceeding \$50, completion of an alcohol awareness program, and/or community service not to exceed 30 hours.

2. It is a violation of New York law for a person under 21 years of age to present written evidence of age which is false, fraudulent or not his or her own, for the purpose of purchasing or attempting to purchase any alcoholic beverage. Such conduct is subject to payment of a fine of, depending on the number of prior violations, between \$50 and \$750, community service, or both, and completion of an alcohol awareness program or evaluation to determine whether the person suffers from alcoholism or alcohol abuse.

3. Using a false or fraudulent written instrument officially issued or created by a public office or governmental instrumentality (e.g., a driver's license) to procure alcohol is also a crime. The penalties include imprisonment of up to 7 years and a monetary fine.

4. It is unlawful to drive while intoxicated (i.e., blood alcohol content of .08 and higher) or while one's ability to operate the vehicle is impaired by alcohol or other drugs. The penalties for driving while intoxicated or impaired may be found on the New York State Department of Motor Vehicles website at <https://dmv.ny.gov/points-and-penalties/penalties-for-alcohol-or-drug-related-violations>.

In addition, New York City law prohibits consumption of an alcoholic beverage or possession with intent to drink an open container containing an alcoholic beverage in any public place except where a permit has been obtained. The possible penalty is a \$25 fine or imprisonment of up to 5 days, or both.

These are only examples of the penalties that can be assessed against an individual for the unlawful possession, use, and distribution of alcoholic beverages and illicit drugs. It is the University's policy to discourage violations of Federal, State, and City laws by its students and employees, and the University will assist in the prosecution by the relevant governmental authorities by cooperating fully with such authorities.

III. HEALTH RISKS ASSOCIATED WITH ILLICIT DRUG AND ALCOHOL USE

A. Health Risks of Illicit Drugs

In general, most illicit drugs can produce one or more of the following reactions: headache, nausea, dizziness, anxiety, damage to organs, addiction and, in extreme cases, death. Interactions between drugs and alcohol can be especially extreme. The use of illicit drugs also can result in asocial or violent behaviors and can negatively impact one's personal development, schoolwork and or performance.

A summary of the health risks associated with the use of illicit drugs is set forth in Appendix B. More information can be found on the U.S. Department of Justice – Drug Enforcement Administration website at <https://www.dea.gov/factsheets>.

B. Health Risks of Alcohol Abuse

The following is a summary derived from governmental studies of the health risks of alcohol.

Alcohol consumption causes a number of marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive a car safely, increasing the likelihood that the driver will be involved in an accident. Low to moderate doses of alcohol also increase the incidence of a variety of aggressive acts, including spousal and child abuse. Moderate to high doses of alcohol cause marked impairments in higher mental functions, severely altering a person's ability to learn and remember information. Very high doses cause respiratory depression and death. If combined with other depressants of the central nervous system, much lower doses of alcohol will produce the effects just described.

Repeated use of alcohol can lead to dependence. Sudden cessation of alcohol intake is likely to produce withdrawal symptoms, including severe anxiety, tremors, hallucinations, and convulsions. Alcohol withdrawal can be life-threatening. Long-term consumption of large quantities of alcohol, particularly when combined with poor nutrition, can also lead to permanent damage to vital organs such as the brain and the liver.

Mothers who drink alcohol during pregnancy may give birth to infants with fetal alcohol syndrome. These infants have irreversible physical abnormalities and mental retardation. In addition, research indicates that children of alcoholic parents are at greater risk than other youngsters of becoming alcoholics.

More information can be found on the National Council on Alcoholism and Drug Dependence's website at <https://ncaddnational.org/facts-about-substance-use/>.

IV. COUNSELING AND OTHER RESOURCES

Detoxification, outpatient and inpatient rehabilitation, and reentry programs are available in New York City and elsewhere.

Persons concerned about substance abuse or alcohol problems are invited to call these numbers listed below for information, confidential referrals and assistance. These are just a sampling of assistance available throughout New York City.

Hotline Numbers

Alcoholic Anonymous	212-647-1680
Al-Anon	212-941-0094
Narcotics Anonymous	212-929-6262
Nar-Anon	800-477-6291
Alcohol and Substance Abuse Information and Referral Hotline	800-522-5353
Substance Abuse and Mental Health Services Administration	800-662-HELP

Montefiore Medical Center operates a substance abuse treatment center, including for the treatment of opioid dependence (narcotics addiction) through the methadone maintenance modality. For more information, visit <https://montefioreinstitute.org/patient-care/services/psychiatry/substance-abuse>.

Employees in need of assistance or support pertaining to drug or alcohol abuse may also contact the Human Resources Department at 646-592-4335 or the University’s Employee Assistance Program via Health Advocate at 866.799.2731/Email: answers@HealthAdvocate.com. If applicable, employees may also contact the 1199SEIU Member Assistance Program at 646-473-6900.

Students in need of assistance regarding drug and alcohol problems may be able to obtain confidential counseling, a referral for counseling or a referral to appropriate outside agencies through appropriate University offices, such as:

- | | | |
|--------------------------------|----------------------------|--------------|
| 1. Student Counseling Services | Beren & Brookdale Campuses | 646-592-4210 |
| 2. Student Counseling Services | Wilf Campus | 646-592-4200 |

The University strongly encourages students and employees to seek help if they are concerned that they or their family members may have a drug and/or alcohol problem. The health and safety of every student and employee is of utmost importance to the University, and seeking help for a drug and/or alcohol problem will not automatically result in the University taking action under this Drug and Alcohol Policy.

V. CONCLUSION

Yeshiva University, as a matter of institutional policy and as required by law, is committed to the prevention of the unlawful possession, use or distribution of illicit drugs and alcohol by students and employees.

In that regard, in each even-numbered year (e.g., 2016, 2018, etc.), the University will conduct a biennial review of its program to:

1. Determine its effectiveness and implement changes to the program if needed;
2. Determine the number of drug and alcohol-related violations and fatalities that occur on the University’s campus (as “campus” is defined by the federal Jeanne Clery Campus Safety Act and as utilized by the University for purposes of its annual security report) or as part of any activity sponsored by, or under the control or supervision of, the University and that are reported to campus officials;
3. Determine the number and type of disciplinary sanctions that are imposed by the University under this Drug and Alcohol Policy; and
4. Ensure that the disciplinary sanctions described in this Drug and Alcohol Policy are consistently enforced.

The University shall, upon request, make available to the U.S. Department of Education and to the public the results of the biennial review in the form of a written report, which shall be completed in the year that the review is conducted. The report shall describe the research methods and data analysis tools that were used in the assessment and shall identify the responsible University official(s) who conducted the review. In addition, the report shall be approved by the University’s President and/or the University’s Board of Trustees.

If you have any questions regarding this Drug and Alcohol Policy or require assistance related to the provisions of this Drug and Alcohol Policy, please call the Office of the General Counsel at 646-592-4400.

APPENDIX A

Federal Penalties and Sanctions for the Illegal Possession of Controlled Substances

NOTE: These are only Federal penalties and sanctions. Additional City and State penalties and sanctions may apply.

21 U.S.C. 844

First conviction: Up to 1 year imprisonment and fine of at least \$1,000 or both.

After 1 prior drug conviction: At least 15 days in prison, not to exceed 2 years, and fined at least \$2,500. After 2 or more prior convictions: At least 90 days in prison, not to exceed 3 years, and fined at least \$5,000.

Upon Conviction, civil fine of the reasonable costs of the investigation and prosecution of the offense.

21 U.S.C. 853

Forfeiture of personal and real property used to possess or to facilitate possession of a Controlled Substance if that offense is punishable by more than 1 year imprisonment.

21 U.S.C. 881

Forfeiture of (i) vehicles, boats, aircraft, or any other conveyance used to transport or conceal a Controlled Substance, (ii) raw materials and equipment used in relation to a Controlled Substance, (iii) property used contain the Controlled Substance or paraphernalia in connection with use of the Controlled Substance, and (iv) moneys and negotiable instruments furnished in exchange for a Controlled Substance.

21 U.S.C. 862

Ineligible to receive federal benefits, such as student loans, grants, contracts, and professional and commercial licenses. For illicit drug distribution, (i) up to 5 years for first conviction, (ii) up to 10 years for a second conviction, and (iii) upon more than two convictions, an individual is ineligible for federal benefits. For illicit drug possession, up to 1 year for the first conviction and up to 5 years for subsequent convictions.

18 U.S.C. 922

Ineligible to receive or purchase a firearm or ammunition.

Miscellaneous

Revocation of certain federal licenses and benefits, e.g., pilot licenses, public housing tenancy, is vested within the authorities of individual federal agencies.

In addition, drug offenses at or near educational institutions carry enhanced penalties. Distribution of a controlled substance in, on, or within 1,000 feet of real property comprising a school, college, or university may subject the violator to twice the usual maximum punishment otherwise authorized by law. (*18 U.S.C. 860*)

Drugs and Federal Aid

In addition to these provisions, the Higher Education Amendments of 1998 provide that, effective July 1, 2000, a student is ineligible for federal student aid if convicted, under federal or state law, of any offense involving the possession or sale of a Controlled Substance (generally meaning illegal drugs, but not including alcohol or tobacco). The period of ineligibility begins on the date of the conviction and lasts until the end of the statutorily specified period. The student may regain eligibility early by completing a drug rehabilitation program that meets certain statutory and regulatory requirements (including 2 unannounced drug tests), or if the conviction is overturned.

Federal Trafficking Penalties for Schedules I, II, III, IV, and V (except Marijuana)

Note: *The minimum sentence for a violation after two or more prior convictions for a felony drug offense have become final is a mandatory term of life imprisonment without release and a fine up to \$20 million if an individual and \$75 million if other than an individual.
